"15 years' experience. The Gurney saves 33 1/2 per cent in fuel."—Letter from Thomas Gray, of Fitchburg, Mass., in reference to

ELEVATION.

GURNEY HOT-WATER HEATER

FITCHBURG, MASS., April 13, 1888.

Dear Sirs: In answer to yours, asking my opinion of the Gurney Hot Water Heater which you sold me, would say that I have had fifteen years' experience in heating hot houses by water, and must say the Gurney Heater purchased of you has proved itself a wonder, both in power and economy, using one-third less fuel to get same results than any heater I have ever used. The brick-lined pot I consider a special feature, as it renders combustion equal throughout the entire pot.

Yours truly,

THOMAS GRAY, Florist.

A SMALL expenditure in advertising in a judicious selection of newspapers is
often contemplated by persons who have not a clear idea as to what publications
should be taken or the cost; they consequently find a difficulty in carrying out the
plan without having the cost exceed the amount contemplated. Such persons do well
to send the copy of the advertisement and a check for the amount of money to be used,
to Geo. P. Rowell & Co.'s Newspaper Advertising Bureau, 10 Spruce Street, New York,
and leave the selection of papers and the number of insertions in each to be determined
by their experience and judgment. In that way the advertiser gets the best service
possible for the money he expends, and the work is promptly done—no time being lost
in correspondence.

tachment, arranged in sets to suit every variety of
